

Pre-Deployment Checklist

Contact Details **Customer Name** _____
Installation Location _____

Tel. _____
E-mail _____

Nortel Identity Engines Ignition Server Appliance Hardware Settings

Appliance hostname _____ **Admin name** (admin) _____ **Primary DNS server addr** _____
Domain suffix _____ **Admin password** _____ **Secondary DNS server addr** _____

3000E Ethernet Ports	IP Address	Subnet mask	Gateway address
3000E Admin Port			
3000E Service Port A			
3000E Service Port B			

Authenticator Connections

	Authenticator 1	Authenticator 2	Authenticator 3
Authenticator Name Name to identify this switch or access point in Ignition	_____	_____	_____
IP Address IP Address of this switch or access point	_____	_____	_____
Subnet Mask	_____	_____	_____
Vendor Switch manufacturer	_____	_____	_____
Model Switch model name/number	_____	_____	_____
Device Type Wired switch, wireless access point, or VPN switch	_____	_____	_____
Shared Secret Device shared secret / specific key string / encryption string	_____	_____	_____

Client Authentication Protocols

- PEAP / EAP-MSCHAPv2
- EAP-MD5
- EAP-TLS
- EAP-TTLS
- PAP
- PEAP / EAP-TLS
- MSCHAPv2
- RSA SecurID

VLAN Provisioning Rules

User Group Name	VLAN Id	VLAN Purpose
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Access Control Policy

Describe the access control policy to be enforced.

Network Diagram

Sketch the network topology below.
