

# Locating Software and Release Notes for Avaya Virtual Services Platform 7200 Series

Release 5.0  
NN47228-100 (700510679 Rev 03)  
Issue 02.01  
December 2015

This document ships with Virtual Services Platform 7200 Series components. Avaya recommends that you check the Avaya Support website for the latest Virtual Services Platform 7200 Series software release.

Avaya also recommends that you read the following documents before you install and configure Avaya Virtual Services Platform 7200 Series:

- *Installing the Avaya Virtual Services Platform 7200 Series*, NN47228-302—provides instructions to perform installation of Avaya Virtual Services Platform 7200 Series.
- *Quick Start Configuration for VSP Operating System Software*, NN47227-102—provides instructions to perform initial provisioning and basic configuration of the software.
- *Release Notes for VSP Operating System Software*, NN47227-401 —includes a list of known issues, including workarounds if appropriate, and a list of fixed issues.
- *Documentation Reference for VSP Operating System Software*, NN47227-100—contains an overview of the documentation suite. Read this document to find the correct document that describes the task you need to perform.

For the current documentation, software, copyright, and open source information, see the Avaya Support website: [www.avaya.com/support](http://www.avaya.com/support)

The Open Source license text for the VSP 7200 Series is included on the VSP 7200 Series product and is accessible via the Command Line Interface by typing the following: `more release/v.x.y.z.GA/release/oss-notice.txt` where v.x.y.z represents a specific release number.
