# Special Notice

This document describes your Access Stack Node (ASN) memory upgrade kit. The kit contents are similar whether you are upgrading your ASN memory to 8 MB or to 16 MB. Check the shipment contents, referring to Table 1.

Table 1. Memory Upgrade Options and Contents

ASN DRAM Can Be Upgraded to:	With Upgrade Kit:	This Kit Contains:
8 MB	Order Number AF0011003	2 DRAM SIMMs 1 Tag SIMM 1 Order Number Label 1 DRAM Order Number Label
16 MB	Order Number AF0011004	2 DRAM SIMMs 1 Tag SIMM 1 Order Number Label 1 DRAM Order Number Label

If any parts are damaged or missing, contact the Bay Networks Help Desk in your area:

United States	1-800-2LAN-WAN
Valbonne, France	(33) 92-966-968
Sydney, Australia	(61) 2-903-5800
Tokyo, Japan	(81) 3-328-0052

## Installing the Upgrade

For complete instructions on accessing the interior of the ASN and removing and replacing the DRAM and Tag SIMMs, refer to *Installing and Maintaining ASN Routers*, which came with your ASN. Then refer to the next section of this document for instructions on labeling your ASN.

## Labeling the ASN

After you perform the DRAM SIMM upgrade, you must label the rear panel of the ASN with a new Order number label, and the ASN motherboard with a new DRAM order number label. Labeling the ASN with the new labels is important because future repairs and upgrades will require that you identify the correct memory configuration of your ASN. To properly label your ASN, complete the following steps.

1. Identify the existing Order number label by looking at the rear panel of the ASN. See Figure 1.

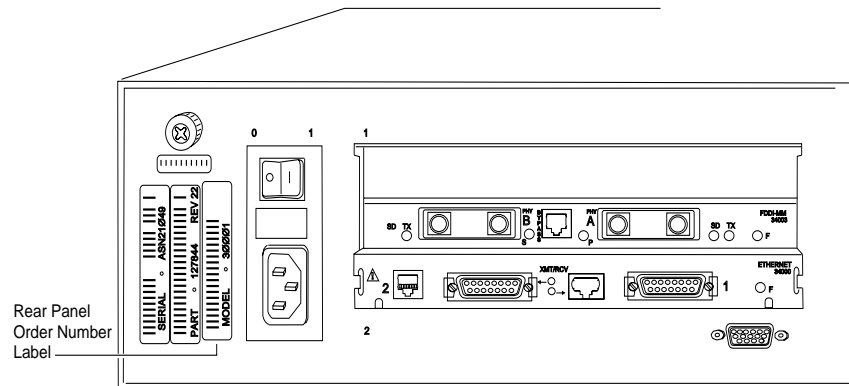

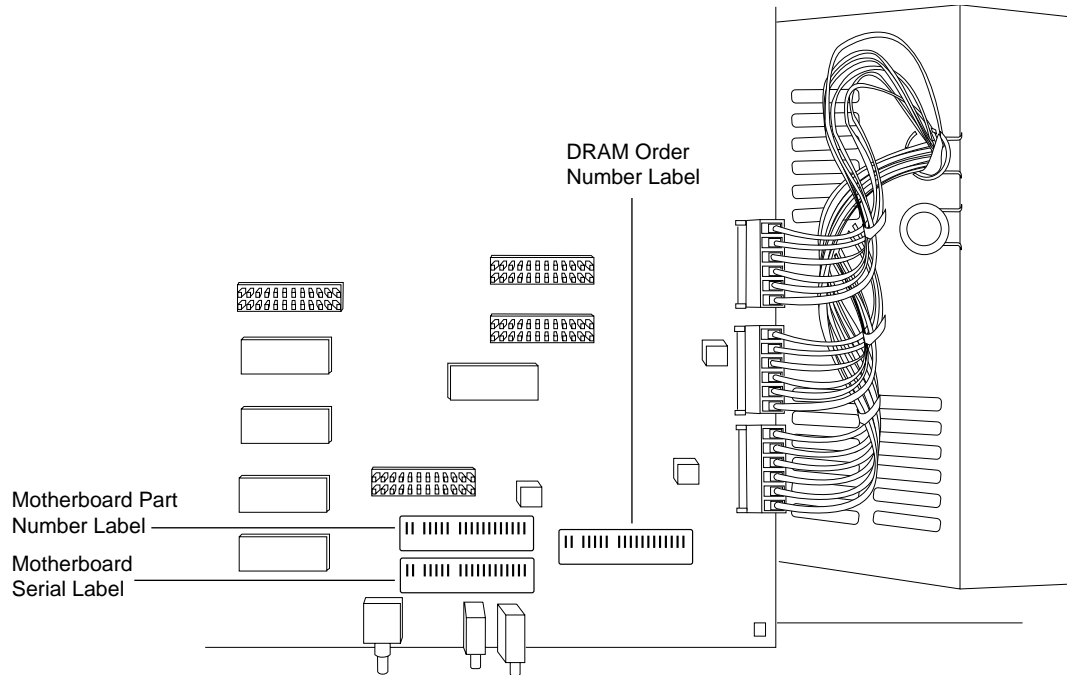

Figure 1. Rear Panel Label on the ASN

2. Apply the new Order number label (which will read 30001, 30002, or 30003) over the existing Order number label on the ASN.
3. Find the part number label on the ASN motherboard. See Figure 2.  
The part number label will read either 107072-xx or 110341-xx.

**Figure 2. Part Number Label on the ASN Motherboard**

4. Apply the DRAM Order number label (which will read either AF0011003 or AF0011004) to the side of the motherboard part number label.
