VERSION OF PREVIOUS RELEASE

Software Version 6.3.1

COMPATIBILITY

This software release is managed with Enterprise Device Manager (EDM), which is integrated into the agent software.

CHANGES IN THIS RELEASE

New Features in This Release

None.

Old Features Removed From This Release

None.

Problems Resolved in This Release	
ERS3600-760	Urgent/11 Vulnerabilities found against VxWorks code For more information, please visit: VN-2019-002 - Vulnerabilities in Wind River VxWorks (URGENT/11)
ERS3600-775	When multiple DHCP servers are configured, a DHCP client may be unable to get an IP address as the DHCP Discover packet sent from ERS3600 to the DHCP server may contain the "Relay Agent IP address" in reversed byte order.

KNOWN LIMITATIONS:

ERS3600-556 - EDM: Users can't connect on switch via secure EDM using Chrome version 59.

Problem description: Starting with version 59, Chrome reports the self-signed certificate issued by ERS family as having bad format and will fail to connect via secure EDM.

Workaround: Use Firefox (v54 or older), IE (v11 or older), Edge (v20 or older) or Chrome (v58 or older)

For other previously known issues, please refer to the product release notes and technical documentation available from the Extreme Networks Support web site at: www.extremenetworks.com/support/.

DOCUMENTATION CORRECTIONS

None.

TROUBLESHOOTING

As good practices of help for troubleshooting various issues, we recommend:

- configuring the device to use the Simple Network Time Protocol to synchronize the device clock;
- setting a remote logging server to capture all level logs, including informational ones. (#logging remote level informational).
- enabling timestamps on all show commands using the cli timestamp enable command

F0615-O
