RedHat Enterprise Linux 5.2

4. Notes for Upgrade

Installation Notes

Enterprise Policy Manager Maintenance Release 5.0.3 applies to both "Express" and "Custom" installations of Enterprise Policy Manager. Enterprise Policy Manager Installation supports the English language set and English operating system.

To install Enterprise Policy Manager Maintenance Release 5.0.3, please follow below steps:

> Enterprise Policy Manager 5.0.3 must be installed on a server that already has EPM 5.0, EPM 5.0.1 or EPM 5.0.2 installed.

> Download the EPM_5_0_3_Windows.zip (windows) or EPM_5_0_3_Linux.zip (Linux) file from the Nortel web site to a directory on the target Enterprise Policy Manager 5.0.3 server or to a server with network share capability.
> Download path:
> > http://www.nortel.com/ > Support & Training menu >
> > Technical Support item > Software Downloads item >
> > Browse product support tab > Products A-Z tab > E >
> > Enterprise Policy Manager Entry > Software link.

> Extract the files to a directory.

> Exit/Close EPM UI & UCM web page.

> Change directory (cd) to: directory where the Enterprise Policy Manager Maintenance Release 5.0.3 files were extracted.

To install Enterprise Policy Manager Maintenance Release 5.0.3 , open a command line and run the epm5_0_3_installer.exe (windows) or epm5_0_3_installer.bin (Linux)

When installation is complete, please exit the command line.

File Names for This Release

File Name	Platform	File Size (bytes)
epm5_0_3_installer.exe	Windows	89,913,035
epm5_0_3_installer.bin	Linux	115,121,896

5. Version of Previous Release

Software Version 5.0.2

6. Compatibility

N/A

7. Changes in This Release

Q02010883	SR4k:Can't install qos policies on Ethernet module interfaces
Q02004832	Class Provisioning Error appears when updating traffic condition
Q02006123	5600: Advanced Options on Marking are not correctly reported in DCB
Q02006620	Policy with Traffic condition Deep Packet Filter is not applied on the device

9. Known Limitations

Uninstallation of EPM 5.0.3
Uninstalling Enterprise Policy Manager 5.0.3 is not supported. For uninstalling EPM 5.0.3, you need to uninstall EPM 5.0. If EPM 5.0.3 is installed on the server, complete uninstallation of EPM 5.0 requires manual deletion of the [ucm_home] directory. For EPM 5.0 uninstallation steps please refer to EPM 5.0 documentation.
        After uninstall of 5.0 is complete, please remove the epm-console.jar from the Java Web Start (javaws) cache. You can remove the epm-console.jar from the Java Web Start (javaws) following below steps:
        Run javaws from command line (javaws can be located in JAVA_HOME/bin).
        Under the user tab, select Enterprise Policy Manager and select Remove Application.

10. Documentation Corrections

For other known issues, please refer to the product release notes and technical documentation available from the Nortel Technical Support web site at: http://www.nortel.com/support .
