3. Platforms Supported

Windows Server 2003 SP2 (Standard or Enterprise versions)

Windows Server 2008

RedHat Enterprise Linux 5.2

4. Notes for Upgrade

Installation Notes

Enterprise Policy Manager Maintenance Release 5.1.1 applies to both "Express" and "Custom" installations of Enterprise Policy Manager. Enterprise Policy Manager Installation supports the English language set and English operating system.

To install Enterprise Policy Manager Maintenance Release 5.1.1, please follow below steps:

Enterprise Policy Manager 5.1.1 must be installed on a server that already has EPM 5.1 installed. Download the EPM_5_1_1_Windows.zip (windows) or EPM_5_1_1_Linux.zip (Linux) file from the Nortel web site to a directory on the target Enterprise Policy Manager 5.1.1 server or to a server with network share capability.

Download path:

<http://www.nortel.com/> > Support & Training menu >
Technical Support item > Software Downloads item >
Browse product support tab > Products A-Z tab > E >
Enterprise Policy Manager Entry > Software link.

Extract the files to a directory.

Exit/Close EPM UI & UCM web page.

Change directory (cd) to: directory where the Enterprise Policy Manager Maintenance Release 5.1.1 files were extracted.

To install Enterprise Policy Manager Maintenance Release 5.1.1, open a command line and run the epm5_1_1_installer.exe (windows) or epm5_1_1_installer.bin (Linux)

When installation is complete, please exit the command line.

File Names for This Release

File Name	Platform	File Size (bytes)
epm5_1_1_installer.exe	Windows	58,322,117 bytes
epm5_1_1_installer.bin	Linux	67,819,352 bytes

5. Version of Previous Release

Software Version 5.1

6. Compatibility

N/A

7. Changes in This Release

New Features in This Release

Device Support:

Below is the list of new device support in EPM 5.1:

Device	Agent Version
ERS 5500	6.1
ERS 5600	6.1

8. Outstanding Issues

CR Number	Description
Q02104882	Cannot set Deep Packet Filtering on 5500
Q02108637	Marking action showing error intermittently
Q02108338	Forward with UP and DP not working for 5600
Q02112025	VLANs discovered by EPM showing Non-EPM Filters
Q02105924	Filter Verification not working on 5500 when I manually delete Policy on device

9. Known Limitations

Uninstallation of EPM 5.1.1

Uninstalling Enterprise Policy Manager 5.1.1 is not supported. For uninstalling EPM 5.1.1, you need to uninstall EPM 5.1. If EPM 5.1.1 is installed on the server, complete uninstallation of EPM 5.1 requires manual deletion of the [ucm_home] directory. For EPM 5.1 uninstall steps please refer to EPM 5.1 documentation.

After uninstall of 5.1 is complete, please remove the epm-console.jar from the Java Web Start (javaws) cache. You can remove the epm-console.jar from the Java Web Start (javaws) following below steps:

Run javaws from command line (javaws can be located in JAVA_HOME/bin).

Under the user tab, select Enterprise Policy Manager and select Remove Application.

10. Documentation Corrections

For other known issues, please refer to the product release notes and technical documentation available from the Nortel Technical Support web site at: <http://www.nortel.com/support>.
