The Extreme AirDefense Essentials serves as a service platform for an on-premises application offering. The Extreme AirDefense Essentials provides a performance validated hosting platform, supporting advanced orchestration of a catalog of applications. The Extreme AirDefense Essentials provides a container-based orchestration framework, in an Extreme Networks qualified and validated high-performance hardware configuration. The framework natively supports clustering, a distributed file system, and orchestration through Kubernetes, providing a highly resilient application operational base.

Current supported platforms: UCP 4120C – [Installation Guide](#)

New Features

The following new features and enhancements are available in Extreme AirDefense Essentials version 23r3.

Table 1: Features and Enhancements

Feature	Description
XESS-984	Adds support for AP3000 and AP3000X.
XESS-1008	Removed Gotham font from AirDefense Essentials application, and replaced with Noto-Sans font.

Open Defects

There are no Open Defects listed for Extreme AirDefense Essentials v23r3.

Closed Defects

The following defects are resolved in Extreme AirDefense Essentials v23r3.

Table 2: Closed Defects

ID	Description
02434953 02590366 02666601	Extreme AirDefense Essentials might generate false rogue AP alarms due to incorrectly identifying neighboring Extreme Networks AP devices using the same network policy as rogue APs.

Help and Support

If you require assistance, contact Extreme Networks using one of the following methods:

Extreme Portal

Search the GTAC (Global Technical Assistance Center) knowledge base; manage support cases and service contracts; download software; and obtain product licensing, training, and certifications.

The Hub

A forum for Extreme Networks customers to connect with one another, answer questions, and share ideas and feedback. This community is monitored by Extreme Networks employees, but is not intended to replace specific guidance from GTAC.

Call GTAC

For immediate support: (800) 998 2408 (toll-free in U.S. and Canada) or 1 (408) 579 2826. For the support phone number in your country, visit: www.extremenetworks.com/support/contact

Before contacting Extreme Networks for technical support, have the following information ready:

- Your Extreme Networks service contract number, or serial numbers for all involved Extreme Networks products
- A description of the failure
- A description of any actions already taken to resolve the problem
- A description of your network environment (such as layout, cable type, other relevant environmental information)
- Network load at the time of trouble (if known)
- The device history (for example, if you have returned the device before, or if this is a recurring problem)
- Any related RMA (Return Material Authorization) numbers

Subscribe to Product Announcements

You can subscribe to email notifications for product and software release announcements, Field Notices, and Vulnerability Notices.

1. Go to [The Hub](#).
2. In the list of categories, expand the **Product Announcements** list.
3. Select a product for which you would like to receive notifications.
4. Select **Subscribe**.
5. To select additional products, return to the **Product Announcements** list and repeat steps 3 and 4.

You can modify your product selections or unsubscribe at any time.
