Software Version 1.1.0/1.2.0

6. Compatibility

7. Changes in This Release

New Features in This Release

None.

Old Features Removed From This Release

None.

Problems Resolved in This Release

The new diagnostic image addressed an ASIC register issue when ARP packets were sent during boot.

The new agent code images resolved a "tSNTP" or "tIcmp" exception error during a silent reboot **(Q01540718)**.

A CPU error when using floating point arithmetic was also fixed in the new agent code images.

8. Outstanding Issues

None.

9. Known Limitations

None.

10. Documentation Corrections

For other known issues, please refer to the product release notes and technical documentation available from the Nortel Technical Support web site at: <http://www.nortel.com/support> .
