

Ethernet Switch 470/460

Software Release 3.7.6

1. Release Summary

Release Date: 17-March-2011

Purpose: Software patch release to address customer and internally found software issues.

2. Important Notes Before Upgrading to This Release

For customers upgrading from software versions older than 3.5.4, a series of upgrades are required to prevent configuration corruption under some circumstances. This upgrade path includes the following releases: 2.5, 3.0, 3.2.1, 3.5.4, and 3.6.8. The specific number of upgrades required depends on the currently loaded code version. For instance, if the current version is 3.2.1, one must upgrade to 3.5.4 first and then to 3.6.8. It is also recommended to download the agent code before upgrading to the new diagnostic code, if this procedure is not followed the GBIC ports may not always functions properly.

3. Platforms Supported

Ethernet Switch 460/470.
