None.

## **Problems Resolved in This Release**

Nortel Networks\* Contivity\* VPN Client sustaining Release Version 7.01.280 fixes the following issues:

Q01581159 –

Using the custom CAB files, a custom Install of the Nortel VPN Client will fail.

Nortel has replaced the 'Custom' release with 'CDROM' release to remedy this problem. The 'CDROM' release does not have cab files, therefore it eliminate the need to expand and repack the the files for customization.

Q01661928 –

When upgrading the Nortel VPN client from version V06\_01 to V07\_01 the user profiles and the group password may not be preserved.

Q01722357 –

When load balancing is used with token authentication on the Nortel VPN Client and if a failure occurs, the NVC may not retry the primary server IP when the client connection attempt is made again.

## **8. Outstanding Issues**

None.

## **9. Known Limitations**

None.

## **10. Documentation Corrections**

None.

For other known issues, please refer to the product Release notes and technical documentation available from the Nortel Technical Support web site at: <http://www.nortel.com/support>.
