

ExtremeWireless 802.11ax AP410C Indoor Access Points

AP410C Overview

The AP410C access point is a high-performance 802.11ax dual-5G, dual-band access point designed for high-density indoor environments. This device supports IEEE 802.11ax Orthogonal Frequency-Division Multiple Access (OFDMA) multi-user access.

The access point can be installed on an indoor environment such as a ceiling rail, on non-standard ceilings, and on a wall.

The AP410C access point has the following features:

- Two LED status lights
- For LED activity description, see "Status LED Activity Description"
- One light sensor located at the top of the device
- Two Ethernet ports - Eth0 and Eth1
- Ethernet ports (Eth0 and Eth1) automatically negotiate half- and full-duplex connections with the connecting device.
 - Eth0 is 100/1000/2500 BASE-T
 - Eth1 is 10/100/1000 BASE-T
 These ports are auto-sensing and adjust to straight-through and crossover standard Cat5 or better Ethernet cables automatically. The access point receives power through an Ethernet connection to the ETH0 port from power sourcing equipment (PSE) that is compatible with the 802.3af and 802.3at standards.
- One USB port
- Use the USB port to connect USB-based beacons such as iBeacon and Internet of Things (IoT) devices. Remove the screw that secures the protective cover to access the USB port.
- One micro USB port
- One reset button
- One security slot
- The best practice is to use Kensington locks for locking the device.
- Temperature:
 - Operating temperature: 0 °C to +40 °C (+32 °F to +104 °F)
 - Storage temperature: -40 °C to +70 °C (-40 °F to +158 °F)
- Relative humidity: 10% to 95% non-condensing

Table 1 AP410C power profile

AP410C	802.3af	802.3at
2.4G radio	2x2 (14 dBm)	2x2 (18 dBm)
5G radio	3x3 (17 dBm)	4x4 (18 dBm)
Sensor radio	2.4G and 5G (15 dBm)	2.4G and 5G (18 dBm)
BLE	Enabled	Enabled
USB	No	Yes
2.5G Ethernet	Yes	Yes
1G Ethernet	No	Yes

For detailed device and radio specifications, refer to the *AP410C Data Sheet*.

Callout	Description
1	ETH0 PoE+
2	Eth1
3	USB port
4	Console port
5	Reset button
6	Security slot
7	Kensington lock

Status LED Activity Description

The AP410C has two status lights on top of the chassis. The status light conveys operational states for system power, firmware updates, Ethernet and wireless interface activity, and major alarms.

- Steady white: The device has successfully established a Control And Provisioning of Wireless Access Points (CAPWAP) connection to ExtremeCloud IQ and is operating normally.
- Slow-blinking white: The device has a CAPWAP connection to ExtremeCloud IQ, but is operating on 802.3af power instead of 802.3at power.

- Steady amber: The device is initializing, rebooting, or is running without a CAPWAP connection.
- Slow-blinking amber: The device has no CAPWAP connection to ExtremeCloud IQ, and is operating on 802.3af power instead of 802.3at power.
- Fast-blinking amber: The device is upgrading its IQ Engine firmware.
- Dark: power is off.

Micro USB Console Port

Through the console port, you can make a serial connection between your management system and the access point.

Note: When you connect to the device using the micro USB Console port, the management station from which you connect to the device must have a VT100 emulation program, such as Tera Term Pro® (a free terminal emulator) or Hilgraeve HyperTerminal® (provided with Windows operating systems from XP forward).

AP410C Box Contents

Ensure that the following items are available:

Table 3 Contents of the AP410C Box

Quantity	Item
1	An AP410C access point
1	Mounting bracket for prelude T-bar ceiling installation (part number AH-ACC-BKT-AX-TB)
1	Read Me card

All optional brackets and accessories are sold separately. For detailed installation instructions about all mounting procedures, refer to the *ExtremeWireless AP410C Access Point Installation Guide* in the Extreme Networks Documentation Support site.

Position the Access Point before Installation

There is a red dot on the back of the access point and the bracket that will work as a guide to position the access point for installation. Line up the red dot on the access point and the bracket for ease of installation.

Install the Access Point

Electrical Hazard: Only qualified personnel must perform installation procedures.

Use these instructions as guidelines for mounting and connecting the AP410C access point easily and safely.

Install the Access Point on a Standard Ceiling Rail

The AP410C access point ships with a mounting bracket for standard 15/16 in. dropped ceiling grid. For non-standard ceiling rail installations, see "Install the Access Point on a Non-Standard Ceiling Grid or a Wall".

- Remove the ceiling tiles.
- Align the accessory on the ceiling rail in such a way that the accessory metal hinges are almost parallel to the sides of the ceiling rail.
- Rotate the accessory clockwise until the metal hinges hook over the edge of the rail and the white tabs click in place.

Note: There are two white tabs in the back of the accessory that holds on to the ceiling rail in place. Use your finger to push and unhook one side of the white tab if you want to remove the accessory from the ceiling rail.

Figure 2 AH-ACC-BKT-AX-TB bracket

Table 4 AH-ACC-BKT-AX-Tb bracket parts description

Callout	Description
1	Metal hinges on the AH-ACC-BKT-AX-TB bracket
2	Mounting holes for wall mounting
3	White tab on the AH-ACC-BKT-AX-TB bracket

- Attach the Ethernet port cap to the access point Ethernet port. For more information about Ethernet cap, refer to Ethernet Cap Accessory Information on the *WiFi6 802.11ax Access Points Accessories Guide*.

- Align the red dot on the back of the access point against the bracket red dot.

Note: The accessory has a circular tip that fits into the circular depression on the back of the access point.

Figure 3 Access point alignment against the red dot on the -TB bracket

- Press and rotate the access point 1/8th turn clockwise until it clicks into place on the accessory.

Figure 4 AP410C access point ceiling install

- Attach the Cat6 RJ45 cable to the ETH0 or ETH1 port.
- Place the cable cover over the Ethernet cable.
- Replace the ceiling tiles.

Install the Access Point on a Non-Standard Ceiling Grid or a Wall

For detailed non-standard ceiling grid installation or wall installation instructions, refer to the *WiFi 6 802.11ax Access Points Accessories Guide*.

The access point can be installed on a non-standard ceiling grid using the following accessories:

Table 5 Non-standard ceiling grid and wall accessories information

Bracket part number	Description
	Mounting bracket for prelude 15/16 in.
AH-ACC-BKT-AX-TB	
	Mounting bracket for interlude ceilings and suprafine 9/16 in. ceilings and walls
AH-ACC-BKT-AX-IL	
	Mounting bracket for silhouette 1/8 in. and silhouette 1/4 in. ceiling grids
AH-ACC-BKT-AX-SL	

Bracket part number	Description
	Junction box or wall mounting for indoor access points
ACC-BKT-AX-JB	
	Beam mounting for indoor access points
ACC-BKT-AX-BEAM	
	Mounting bracket for direct-to-wall installations
AH-ACC-BKT-AX-WL	

Note: The default bracket for wall installation is the ACC-BKT-AX-JB bracket. Order the -JB bracket for new wall installations. The AH-ACC-BKT-AX-WL bracket is for users who already have the -WL brackets.

Lock the Access Point after Installation

Secure the access point by using the Kensington lock on the side of the access point. The security feature is used to prevent the access point from being removed from the mounting accessory.

Professional Installation Instruction

Installation personnel

This product is designed for specific application and needs to be installed by a qualified personnel who has RF and related rule knowledge. The general user shall not attempt to install or change the setting.

Installation procedure

Refer to the *ExtremeWireless AP410C Access Point Installation Guide*.

Warning: Select the installation position and ensure that the final output power does not exceed the limit set forth in relevant rules. The violation of the rule could lead to serious federal penalty.

Instructions d'installation professionnelle

Installation

Ce produit est destiné à un usage spécifique et doit être installé par un personnel qualifié maîtrisant les radiofréquences et les règles s'y rapportant. L'installation et les réglages ne doivent pas être modifiés par l'utilisateur final.

Procédure d'installation

Consultez le manuel d'utilisation *ExtremeWireless AP410C Access Point Installation Guide*.

Warning: Avertissement: Choisir avec soin la position d'installation et s'assurer que la puissance de sortie ne dépasse pas les limites en vigueur. La violation de cette règle peut conduire à de sérieuses pénalités fédérales.

Regulatory and Compliance Information Safety Guidelines

This section contains notices that are intended to protect your personal safety and to prevent damage to the equipment.

Qualified Personnel:

 **Electrical Hazard:** Only qualified personnel must perform installation procedures. Within the context of the safety notes in this documentation, qualified persons are defined as persons who are authorized to commission grounding devices, systems, and circuits in accordance with established safety practices and standards. A qualified person understands the requirements and risks involved with installing outdoor electrical equipment in accordance with national codes.

Japan Indoor Use Statement

For Japan, AP410C access point is restricted for indoor use in the 5150-5350 MHz band only.

Japan Voluntary Control Council for Interference (VCCI) - Class B

 この装置は、クラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。
取扱説明書に従って正しい取り扱いをして下さい。 VCCI—B

European Union (EU) Radiation Warning Statement

 **Warning:** This equipment complies with EU radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.

The device is restricted to indoor use only when operating in the 5150 to 5350 MHz frequency range.

Federal Communications Commission (FCC) Radiation Exposure Statement

 **Warning:** This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.

Other Countries

Brazil

Este produto está homologado pela ANATEL, de acordo com os procedimentos regulamentados pela Resolução nº. 242/2000 e atende aos requisitos técnicos aplicados.
Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistemas devidamente autorizados. Para maiores informações, consulte o site da ANATEL – www.anatel.gov.br

Mexico Compliance Statement

La operacion de este equipo esta sujeta a las siguientes dos condiciones
1 es posible que este equipo o dispositivo no cause interferencia perjudicial y
2 este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operacion no deseada.

The operation of this equipment is subject to the following two conditions:
1 It is possible that this equipment or device does not cause disruptive interference and
2 This equipment or device must accept any interference, including interference that may cause undesired operation.

Industry Canada Notice

 **Warning:** For indoor use only.
Pour une utilisation en intérieur uniquement.

This device complies with ISED’s licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d’ ISED applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes : (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

 **Caution:** The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

 **Caution: Avertissement:** Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l’intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

This radio transmitter [IC: 4141B-AP410C] has been approved by Innovation, Science and Economic Development Canada to operate with the antenna types listed in *ExtremeWireless AP410C Access Point Installation Guide*, with the maximum permissible gain indicated. Antenna types not included in this list that have a gain greater than the maximum gain indicated for any type listed are strictly prohibited for use with this device.

Le présent émetteur radio [IC: 4141B-AP410C] a été approuvé par Innovation, Sciences et Développement économique Canada pour fonctionner avec les types d’antenne répertoriés dans le Guide d’installation des points d’accès sans fil extrêmes AP410C, avec le gain admissible maximal. Les types d’antenne non inclus dans cette liste, et dont le gain est supérieur au gain maximal indiqué pour tout type figurant sur la liste, sont strictement interdits pour l’exploitation de l’émetteur.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Taiwan Regulatory Statement

第十二條→經型式認證合格之低功率射頻電機，非經許可，公司，商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。第十四條→低功射頻電機之使用得影響飛航安全及干擾合法通信；經發現有干擾現象時，應即停用，並改善至無干擾時方得繼續使用。前項合法通信，指依電信法規定作業之無線電通信。低功射頻電機須忍受合法通信或工業、科學及醫用電波射性電機設備之干擾。在 5.25-5.35 赫赫頻帶操作之無線資訊傳輸設備，限於室內使用。無線資訊傳輸設備的製造廠商應確保頻穩定性，如依製造廠商使用手冊上所述正常操作，發射的信號應維持於操作頻帶中。

Taiwan Maximum Permissible Exposure (MPE) Warning
電磁波曝露量MPE 標準?(MPE) 1mW/cm2, 送測?品質?為0.734 mW/cm²

Avoid affecting the operation of nearby radar systems. 應避免影響附近雷達系統之操作
High-gain directional antennas can only be used in stationary point-to-point systems. 高增益指向性天線只得應用於固定式點對點系統。

Supplement to Product Instructions

備考1: “超出0.1 wt %”及 “超出0.01 wt %” 係指限用物質之百分比含量超出百分比含量基準值。 Note 1: “Exceeding 0.1 wt %” and “exceeding 0.01 wt %” indicate that the percentage content of the restricted substance exceeds the reference percentage value of presence condition.						
備考2: “○” 係指該項限用物質之百分比含量未超出百分比含量基準值。 Note 2: “○” indicates that the percentage content of the restricted substance does not exceed the percentage of reference value of presence.						
備考3: “—” 係指該項限用物質為排除項目。 Note 3: The “—” indicates that the restricted substance corresponds to the exemption.						

European Waste Electrical and Electronic Equipment (WEEE) Notice

In accordance with Directive 2012/19/EU of the European Parliament on waste electrical and electronic equipment (WEEE):

- The symbol above indicates that separate collection of electrical and electronic equipment is required.
- When this product has reached the end of its serviceable life, it cannot be disposed of as unsorted municipal waste. It must be collected and treated separately.
- It has been determined by the European Parliament that there are potential negative effects on the environment and human health as a result of the presence of hazardous substances in electrical and electronic equipment.
- It is the users’ responsibility to utilize the available collection system to ensure WEEE is properly treated.
For information about the available collection system, please contact Extreme Environmental Compliance at Green@extremenetworks.com.

Hazardous Substances

This product complies with the requirements of Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Declaration of Conformity in Languages of the European Community

English Hereby, Extreme Networks declares that the radio equipment type (AP410C) is in compliance with Directive 2014/53/EU. For full text of the EU Declaration of Conformity, please contact Extreme Regulatory Compliance at compliancerequest@extremenetworks.com
